Subject: Daily Summary Report of Grant Terminations as of 03/27/2025

Attachments: Grant Termination List.xlsx

Up to 263 terminated/ cancelled.

Also, yesterday I had the amount wrong. Somehow, I had \$410M (I went back and can't figure out why the sum was incorrect) and it should have been \$251M. It is up to \$323M today.

It looks like there were 17 other pre-award actions under this program that were not selected. Any idea why?

Great Travis, thank you! We will get moving on these, plus all the TCTACs!

I'm including Erica since I think she'll be submitting the cancellation requests and Dan's team will execute.

Good Morning Team—

Below are the next set of approved to cancel grants. \$42,261,933 total in remaining funds it looks like, but OMS can confirm.

One flag I have is the first few large ones are the EJ Thriving Communities Technical Assistance Centers (TCTACs)—https://www.epa.gov/environmentaljustice/environmental-justice-thriving-communities-technical-assistance-centers. There were 18 in total established, so a number of them are missed here. Not sure why they didn't all get captured (they may not have all gone out yet), but I would want to apply a broad approach and cancel them all in the vein the entire program is inconsistent with Administration priorities and I personally do not see the need for these because at the state-level, EPA and the TCTAC grantees refused to engage with the state in any kind of coordination. This should result in a larger \$\$ amount.

I can flag for OMS separately too that we want the cancellation to extend to every TCTAC grantee.

On the 2/13 grants reviewed, can you add the remaining amount of the grant? That would be helpful to see that information moving forward like it was presented on the 2/11 grants.

Hope to have another set (contracts and grants) coming y'alls way soon.

Thank you for this update Travis.

As a note: OMS is giving input on whether they think any given contract is mission-critical, and they didn't mark any of these contracts as mission-critical.

OMS is now moving forwards with terminating these contracts.

Hi everyone,

Keeping up the cadence today, we have added to the queue a list of 71 grants that were all signed before July 1, 2024, worth \$119M (ceiling; savings will be lower once we subtract obligations). The new tab is called "Feb 13 grants to cancel".

It was great to put 5 of the "gold bars" on this list, that are signed before July 1! (The majority of those were signed after July 1.) We have marked those 5 rows in blue, because gold is too hard to read. Total award value for those 5 is \$36.9M, of which \$27.8M has not yet been obligated. We are calling them "gold bars" because they were awards to grant makers who plan to give subawards. 4 of the 5 are part of the Thriving communities grantmaking program that Lee cancelled part of earlier today.

I have added a column "T&C" that indicates no notice and comment period required for the contracts and grants we already sent you. As you can imagine, the DOGE team has lawyers that are pretty experienced with grant and contract cancellation at this point, so that's what that is based on!

I will also add that the careers in EPA OMS are already supporting us on this – they are the ones who will be executing the cancellation on your greenlight, not us. They see no issues with cancelling the Feb 11 list of contracts, and we're sharing the Feb 12 list with them now. They seem very knowledgeable about this topic, so I think you should trust them on how to cancel properly!

Thank you so much! This is really helpful. Paige and I had a good discussion with the Administrator last night reviewing the examples and process. One aspect he raised that we just want to ensure we are covering when taking the action to cancel that we are doing it reflective of any terms/conditions/notification requirements in the contract or grant. Is that something y'all feel you are able to capture in your review or we can engage OMS to quickly get us that details.

Otherwise he liked the process and agrees that we'll be able to quickly move through reviewing these once that element is addressed.

Sorry again to add one more aspect, but with that I believe we'll be able to cover all the elements requested by the Administrator.

Subject: RE: Loving, Kathryn shared "contract_details" with you

Hi all, thank you so much for taking a look at the Feb 11 contracts last night! I moved the rows that were more controversial over to the "contracts to review" tab. (e.g. if Paige flagged.) The careers are ready to hit cancel on the rest, pending a green light from you all!

In addition, we added a new tab "Feb 12 contracts to cancel" with a new tranche of contracts we found today. We'd love your review on those as well.

Similar story for the grants – the grants that Paige flagged are moved over to "grants for further review". They are all under 2 grant programs EPA has already halted, and were all signed prior to July 1, 2024, so we think they will be straightforward to cancel once you give a green light. We did not add any new grants today; maybe tomorrow 🕄

And in all tabs there is now a "reason" column to justify cancellation.

Best, Kathryn

Hi Travis, as we discussed today, here's a list of contracts and grants that we want to push forward to cancellation, and keep the momentum going! We removed the ones we thought were yellow flags, so we think these are pretty uncontroversial, but we added a column "AO reviewed", for your team to add any greenlight or flags.

Thanks!
